

**WAIT... WEREN'T WE TALKING ABOUT
GRAPHQL? WHY DOES ANY OF THIS
MATTER FOR AN API?**

You, probably.

WHY DECLARATIVE MATTERS TO AN API

You, the lazy and overworked client-side engineer, no longer have to worry about ***how*** to fetch the data. You simply tell the server what data you want.

```
users(username: "Jon Snow") {  
  username,  
  email,  
  age,  
  threads {  
    title,  
    posts {  
      body  
    }  
  }  
}
```
